THEIR STORY

designed by dog people, for dog people

From a dog friendly office to birthday parties for our pups, we don't just love dogs. We think of them as our family. It's how we are able to put such care and devotion into the creation of our toys. They're designed not only with lifestyle in mind, but to be the highest quality and safest on the market. ZippyPaws' own dogs are our first line of quality assurance. If it's not good enough for our own, it's not good enough for yours.

THEIR GOAL

Boost Online Holiday Sales

ZippyPaws wanted to increase online sales using a "full-funnel" approach that strategically aligned targeting, customized creative and ad types to reach new and existing customers with the right message and products at the right time.

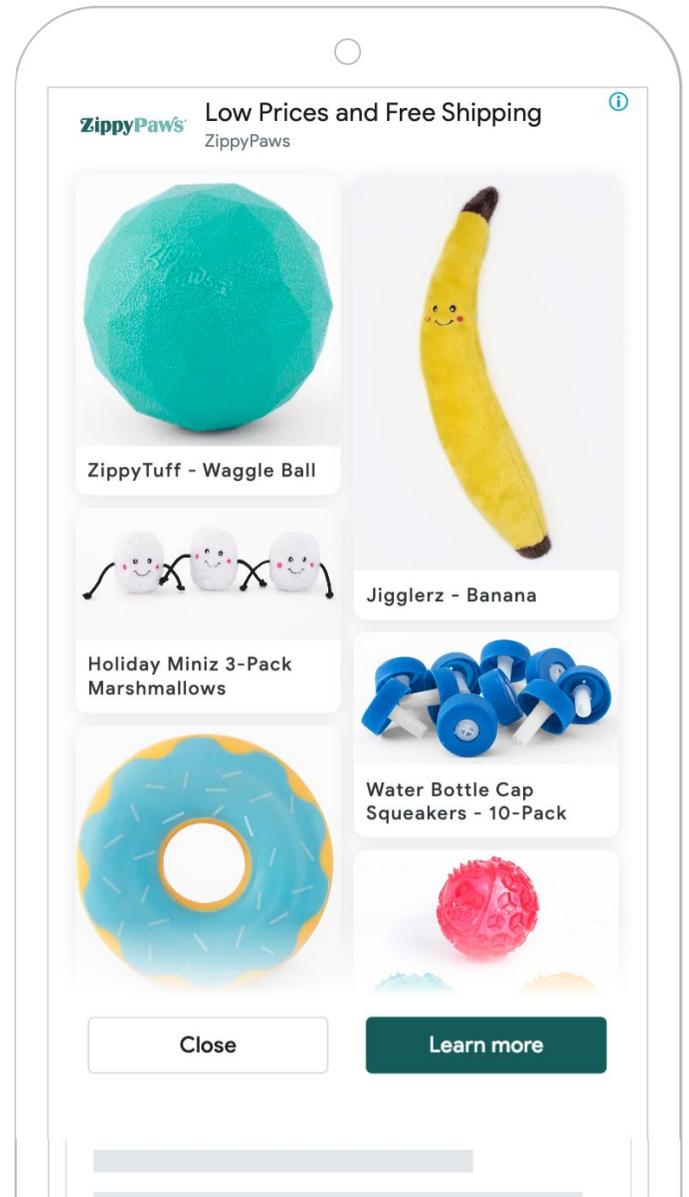

THEIR SOLUTION

Target Messaging

ZippyPaws teamed up with the Ricky Coburn to create a data driven marketing strategy that would increase overall purchases and customer lifetime value.

The goal was to attract potential customers who were not only going to make a purchase, but were most likely to make repeat purchases for their pets.

The team used their first party data and machine learning to create Google ads campaigns targeting audience behavior and buying habits.

THEIR SUCCESS

A shortcut to sales

ZippyPaws measured the results of their November 23 - December 23, 2022 Holiday Campaign by using a combination of Google Ads Data and Google Analytics Data to get an accurate interpretation of their data.

We quickly concluded that targeting segmented audiences with ads was the most effective way to generate qualified leads. With first party data and campaign analytics we built an automated dashboard that was key in analyzing ZippyPaws ad performance at a granular level. At our comprehensive bi-weekly optimization sessions, we looked at results and were able to find the perfect strategies to increase marketing efficiencies.
